

Project & Task Completion Report:

Syntecxhub Portfolio Website

Developer: Nagalambika D Koralli (Computer Science & Engineering Undergraduate)
Organization: SYNTECXHUB / Sharanbasava University
GitHub Repository: [dharmarayank946/Syntecxhub_Portfolio_Website](https://github.com/dharmarayank946/Syntecxhub_Portfolio_Website)
Live Deployment: https://dharmarayank946.github.io/Syntecxhub_Portfolio_Website/
Date: October 3, 2026

1. Executive Summary

This report documents the end-to-end design, implementation, refinement, structural optimization, and cloud deployment of **Nagalambika D Koralli’s Official Portfolio Website**. Built purely using standard semantic **HTML5** and custom modular **CSS3**, the portfolio provides a high-impact, professional platform showcasing academic achievements, internships, industry certificates, projects, and offer letters.

2. Technology Stack & Key Guidelines

Aspect	Specification
Markup Language	HTML5 (Semantic document hierarchy, clean sectioning)
Styling Engine	Vanilla CSS3 (Custom design tokens, glassmorphism card components, CSS Grid/Flexbox)
Frameworks / Libraries	None (Zero dependency, optimized single-page static application)
Typography	Modern sans-serif stack (Plus Jakarta Sans, Inter fallback)

Aspect	Specification
Color Palette	Soft teal accents (#0d9488), warm amber highlights (#d97706), white card surfaces
Version Control & Hosting	Git, GitHub (dharmarayank946), GitHub Pages

3. Section Architecture & Layout Hierarchy

- 1. **Hero Section:** Clean presentation of name (*Nagalambika D Koralli*), subtitle (*Web Developer | UI/UX Learner*), and undergraduate background without photo placeholders or obsolete titles.
- 2. **01. About Me:** Highlights Computer Science & Engineering B.Tech details at Sharanbasava University (CGPA 9.62) and Pre-University education (88%).
- 3. **02. Achievements:** Uniform highlight-card components featuring Bug Hunt First Prize, Jnanothsava Hackathon, Invictus, Codemyfyp, and Ignite Bootcamp achievements.
- 4. **03. Internships:** Categorized into Ongoing (*Veda Technology, SYNTECXHUB, Next Gen Software Hub, Zen AI*) and Completed (*ElevanceSkills, Mastertej*) with verified offer letter document links.
- 5. **04. Skills:** Categorized skill chips across Web Technologies, UI/UX & Tools, and Core CS Fundamentals.
- 6. **05. Offer Letters:** Centralized archive of official offer letters (*Axlero, Clinch Cloud, CodeAlpha, Zaalima*) with status tags (*Offer Received — Not Accepted*).
- 7. **06. Certifications:** Display of 14 verified industry certificates with concise 1–2 line descriptions and clean badge presentation.
- 8. **07. Projects:** Equal-weight 3-column project grid showcasing *GovShield Nexus, Smart Hospital Consultation & Queue Dashboard*, and interactive full-stack projects.
- 9. **08. Contact Me:** Direct contact section featuring email (nagalambikakoralli17@gmail.com), LinkedIn, and GitHub links.

4. Summary of Key Modifications & Enhancements

Note: All changes strictly adhered to user guidelines: zero mixing of secondary profile data, pure HTML+CSS architecture, and equal visual priority across project components.

- **Hero Section Refinement:** Completely removed obsolete "Python Developer / Full Stack Developer" labels and eliminated photo frame placeholders for a sleek typography-driven hero.
- **Next Gen Software Hub Internship Addition:** Added the 4-week Web Development Internship starting October 7, 2026, complete with direct PDF access (`nextgen_offer.pdf`).
- **Zen AI Card Update:** Updated the Zen AI card with an active document button linking directly to the verified internship offer letter.
- **Uniform Card Styling:** Standardized card backgrounds across hackathons and achievements for visual alignment.
- **Root Restructuring for GitHub Pages:** Moved all web app assets from a subfolder directly to the root of the repository so that GitHub Pages serves the portfolio directly at the primary domain.

5. Deployment & Deliverables Status

Item	Location / Details	Status
GitHub Repository	dharmarayank946/Syntechhub Portfolio Website	Pushed & Up to Date
Live Web URL	https://dharmarayank946.github.io/Syntechhub Portfolio Website/	Active
Local Web Server	<code>http://localhost:5500/</code>	Running
Offline ZIP Package	<code>portfolio_website.zip</code> (<code>D:\Projects\Veda\portfolio_website.zip</code>)	Generated (~9.4 MB)

Tip for Future Updates: To update the repository in the future, navigate to `D:\Projects\Veda` in your terminal and run:

```
git add -A
git commit -m "Update portfolio content"
git push origin main
```
